

FLD3-Series LED Flood Light

Built to beat the common COB
flood lights and traditional HID flood lights

Up to 20,000 Lumens

Multi Beam Angles

Unlike the common COB type LED flood lights with only one beam angle of 120 degree, the **FLD3-Series** LED flood light offers a award winning multi beam angle lens:

- 30°x70°
- 60°x90°
- 120°

The **FLD3-Series** is suitable for all kinds of applications with different height and spacing. The PC lens is a ultra high quality that is made for the 'ruff' of outdoor applications

Strong and very robust

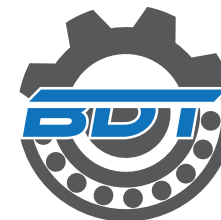

All the screws are made in 304 stainless steel. With a rotatable bracket, $\pm 45^\circ$ angle can be setup for different applications. The FLD3-series brings convenience to lighting

10KV Surge Protection

Safe using for high mast lighting.
